## CONCEALED WEAPONS PERMIT CLASS

**Intended for all individuals regardless of shooting experience.**

So happy to know you recognize the vitality of exercising your 2nd Amendment "Right to bear arms", to protect yourself, your family, your business, and others! With all the unpredictabilities every day, everywhere you go, it is amazing how far we have come from feeling safe to feeling vulnerable. Now the ball is in our court and we have to protect what is precious to us, with our own volition! This means, getting the right training, learning the laws and rules concerning possessing a firearm, carrying a firearm concealed, and especially knowing the liabilities on the other side of needing to use your firearm. Lots of the time the law is vastly gray and open to interpretation, which is why we make it our business to make sure you are in "the know", for your protection on both sides!

Despite how you may be feeling, you are making the right decision if you want to protect yourself, your loved one, what

you have worked hard for, and others. You obviously are not a person who wants to do harm to others. Those individuals do not care about learning the laws or the rules because they have no intention of following them, which is all the more reason why you going all the way of getting instruction, furthering your training, and purchasing your own firearm is a must! You do not want to be their next victim and training can even make you a HERO!!

## ***WHY CARRY A CONCEALED WEAPON?***

***In a world that seems to get more dangerous every day, a little forethought can go a long way when it comes to protecting you, your loved ones, and beyond.***

## **OUR FIREARM SAFETY COURSE IS DESIGNED TO:**

Prepare new and existing gun owners to intentionally carry a concealed firearm with clarity and confidence. It is intended for all individuals regardless of shooting experience if only to stay current with the laws. The range safety component to the class is designed to give prospective gun owners the opportunity to experience safe firearm handling in a shooting range environment.

During your course, you will be provided with instruction on handling, grip, stance, breathing, trigger, sight alignment, and much more. You will definitely be prepared with an idea of what to expect in your range experience. All who desire a certificate to obtain their concealed carry permit are required to shoot a firearm in front of their instructor to complete their state qualifications. You may use your own

firearm or the class firearms to qualify. We rent 3 calibers of firearms; the .22, .380, and 9mm. These firearms range from the easiest and lightest to shoot to the more advanced power of the 9mm; your choice can be discussed with your instructor. This is really the EXCITING part when fear turns to ECSTATIC!!

This course is \$65 and taught by an NRA Law Enforcement & Chief Range Safety Instructor. *Certificates will be provided at the end of the successful completion of the course.*

## **MORE FIREARM COURSES:**

**These firearm courses are designed for the beginner, intermediate, and advanced person to stay on-top of the current laws, rules, and the vast gray area of liabilities!**

There is always room for improvement in your firearm shooting technique; grip, stance, breathing, trigger and sight alignment and more. Always remember that firearm shooting is a perishable skill and it is important to remain fresh on your technique so you don't accidentally hit the innocent bystander!
